LIST PRICE BID PROCESS

LOCATION OVERVIEW

The offering provides an exceptional opportunity to acquire a large-scale trophy redevelopment site, currently improved with a townhouse complex comprising 28 townhouse units constructed in 1983

- The property sits on an expansive 2-acre (Approx) site located just East of Burnaby in a Highly desirable transit-oriented area within Coquitlam City Centre Area Plan

The property is walking distance to Douglas college campus, 2 sky train stations, Lafarge Lake, Coquitlam Center mall and Park and walking and hiking trails. Only 7 KM from Trans Canada highway

OFFICIAL COMMUNITY PLAN

Transit-oriented development (TOD) is a key concept that informs the Vision and policy direction of the Plan. TOD is a pedestrian-friendly, compact mixed-use form of development centered around rapid transit. This type of planning aims to provide a variety of uses, housing types and transportation alternatives to the automobile within walking distance of rapid transit stations.

-  Major destinations and centres are located along direct corridors making them easy to be served efficiently by rapid transit;
-  Walking distance to rapid transit is minimized by a finger-grained Street network
-  Pedestrian-friendly urban design including safe, comfortable and direct walking and cycling connections;
-  Higher residential and employment density;
-  Rich diversity of land uses and housing types; and
-  Transportation Demand Management (TDM) measures that encourage walking, cycling and public transit use.

The Medium Density Apartment Residential designation is intended to support the development of low to medium density attached housing. Building forms will range from 4 to 8 storeys in height depending upon area specific policies.

SURROUNDING PROPERTIRS UNDER REZONING APPLICATION
